Assignment 1

1. Create a blank file named 'myfile' and open it in vi editor.

```
File   Edit   View   Search   Terminal   Help
[osboxes@osboxes ~]$ touch myfile
[osboxes@osboxes ~]$ vi myfile
```

2. Edit all the required details and exit by pressing esc and then ':wq!'.

```
File   Edit   View   Search   Terminal   Help
Name : Lakshaya Bawa
Address : India
Email : Laksxxixxxx@gmail.com
Phone no. 78xxxxxx
Blood Group : B+
~
~

~
~
~
~
~
~
~
~
~
~
~
:wq!
```

3. Then enter the command to view both name and blood at the same time from myfile.

```
[osboxes@osboxes ~]$ touch myfile
[osboxes@osboxes ~]$ vi myfile
[osboxes@osboxes ~]$ grep 'Name\|Blood\ Group' myfile
Name : Lakshaya Bawa
Blood Group : B+
[osboxes@osboxes ~]$
```
